

Arclune — Reader Mode EN v1.0b

Guide + Cheat Sheet + Sample Lines (adds Pronoun/Honorific mappings & dialogue examples).

Core carry-overs (compact)

- UI: [UI:+...] block/inline; lock during combat; Zero-point exact string.
- Currency: 1 L-stone = 100 shardlets; HollowNet fees 3/6/9 L-stones.
- Breathwork Lv1 $\approx$ half a tenth of Basic Core; 'tenths' for percent.
- Brand cadence: KLC stamp/news $\leq$ 1 per 12-16 chapters.

Pronoun & Honorific Mapping (VN → EN)

- ta – người → I – you (default modern). Avoid archaic 'thou'.
- ta – nàng (narrative about a woman) → I – she/her (narration) / Miss + Name (address) when polite.
- tỷ tỷ / đại tỷ / muội muội / đệ đệ → sis / big sis / little sis / little bro (friendly/colloquial). Use Miss/Mr. + Name if formal/first meet.
- đại ca → big bro (street) / boss (gang vibe).
- sư phụ – đệ tử → Master – disciple (sect); or Teacher – disciple for urban feel.
- tiền bối – hậu bối → Senior – Junior (optionally add name: 'Senior Tran').
- thúc thúc / a di (kids to mid-aged) → uncle / auntie.
- cữu cữu / nãi nãi → grand-uncle / granny (if literal elders); otherwise sir/ma'am to avoid false kinship.

Tone notes

- Urban/metropolis: 'I-you', 'sir/ma'am', 'sis/bro' for warmth; kids use 'uncle/auntie' for mid-aged strangers.
- Sect/formal: 'Master-disciple', 'Senior-Junior', family-style terms sparingly unless intra-sect bonds.
- Switching register = character color: MC can start with 'Miss Tham' → later 'sis' once rapport builds.

Dialogue Samples (VN → EN)

1) Kid to young-looking woman (a di)

VN: "A di, người đẹp quá."

EN: "Auntie, you look so pretty." (If she looks ~20s but kid-speak keeps 'auntie'.)

2) Friendly peers (tỷ tỷ)

VN: "Tỷ tỷ, cho ta mượn Danh Ảnh một lát."

EN: "Sis, lend me your Nameglass for a sec." (If not close → "Miss, could I borrow your Nameglass?")

3) Street respect (đại ca)

VN: "Đại ca, chuyện này để em xử lý."

EN: "Big bro, let me handle this." (Gang vibe → "Boss, let me handle it.")

4) Sect/formal (sư phụ – đệ tử)

VN: "Sư phụ, đồ nhi đã về."

EN: "Master, your disciple has returned."

5) Confrontation (ta – người)

VN: "Người nói lại xem."

EN: "Say that again." (Keep modern 'you', not archaic.)

6) Polite address to woman (nàng vs Miss)

VN (nội tâm): "Nàng trông điềm tĩnh." / (đối thoại): "Thắm cô nương."

EN (narration): "She looks composed." / (speech): "Miss Tham."

Micro Checklist

- Use 'I-you' as default; adjust formality by scene.
- Kids → 'uncle/auntie' for mid-aged; 'sis/bro' for young adults.
- Reserve 'Master-disciple' / 'Senior-Junior' for sect/formal contexts.
- Avoid pseudo-archaic English; let diction and world terms carry the tone.

v1.0b extends v1.0a with pronoun/honorific samples. Keep both for consistency while translating.

Arclune — RM-EN v1.0c (PATCH)

Scope: Adds HollowNet & Instance governance to RM-EN v1.0b; mirrors VN RM v1.68 canon. Safe to staple to the end of v1.0b or use as a quick reference.

RS.GOV — Realm Spirit Governance

- Instances (aka “`□□`” / dungeons) are operated by the Realm Spirit. Heaven’s Mandate (Heavenly Dao) oversees at system level. Name Shrine (civic office) handles discipline, identity, and incident reporting.
- HollowNet access (per person): up to 3 entries/day. Fees by locale: Outer 3 / Metropolis 6 / CGQ 9 L-stones. Rate: 1 L-stone = 100 shardlets.
- UI rules: [UI] locks on Combat; Insight cut-scenes run only when safe.

WS.BICLOCK — Instance Time Dilation Ladder

Time dilates inside instances by Tier Scale (TS). Baseline = real-world time. Canon ladder:

- TS-1 → ×2
- TS-2 → ×3
- TS-3 → ×4
- TS-4 → ×5
- TS-5 → ×6
- TS-6 → ×7
- TS-7 → ×8
- TS-8 → ×9
- TS-9 → ×10

Notes: Admins may cap TS by bracket/event. Domain fields and godforce are suppressed unless explicitly whitelisted by event rules.

WS.LAW — Conduct & Enforcement (abridged)

- Anonymity is managed by Nameglass tiers. Mask breach → sanction by Name Shrine.
- Field bans: no private domains (fields) or divine force deployment inside HollowNet/instances unless stated.
- Evidence: Runeslate reports + Shrine stamps constitute civic record.
- Abuse: griefing new entrants, botting, or bypassing entry quotas triggers suspension.

Cross-reference

This patch mirrors the VN RM v1.68 update and should be read alongside “Arclune — RM-EN v1.0b UNIFIED (Guide + Cheat Sheet + Samples + Pronouns)” for the full reader-mode set.
